Dear Dr. Stenzel:

Please fill out in duplicate and forward to Stanford Univ, the enclosed. I want to take a few graduate courses while living on West Coast.

In the past few years I have been semi-retired, living on producing royalties. I have followed your career with interest and remember well the fun we had in Texas A.M. where in June, 1928, I received my B.S. degree in geology. Hope all is well with you.

Sincerely,
Hewlett A. Russell
