Dr. H. B. Stenzel
Bureau of Economic Geology
University of Texas
Austin, Texas

Dear Dr. Stenzel:

The other day the five type specimens of Nilaturia arrived in good condition, and I am writing to acknowledge their safe receipt. As soon as I have had an opportunity to study them thoroughly and possibly photograph some of them, I will return them to you. It is indeed fine of you to allow me to study these specimens, and I thank you most sincerely for this favor.

Cordially yours,

A. K. Miller.
