Dear Mrs. Guion:

In response to your letter of November 12, 1964, I should say one cannot be astounded that Dr. Carey Cronels did not answer that letter. After all, the man is Chancellor and very occupied by university administrative matters. I would suggest that the professor in charge of the graduate student's work write a letter to Dr. John A. S. Adams, Geology Department, Rice University, asking for help. Professor Adams does much of the geology department's work.

Thank you very much for sending me the copies of my publications. I can use them very well.

With best wishes.

Sincerely,

H. B. Stenzel
