Dr. H.B. Stenzel
Shell Development Company
Exploration & Production Research
P.O.Box 481, Houston I, Texas

Dear Dr. Stenzel,

I have send to you a fortnight ago, five specimens of *Exogyra aquila* from Laval-Saint-Roman (Département du Gard). The level is Lower Aptian (Bedoulian) and very probably the middle part of it.

I hope the parcel will arrive safely to you and I send you my best wishes.

Sincerely yours

J. Sornay
