

AGRICULTURAL AND MECHANICAL COLLEGE OF TEXAS

COLLEGE STATION, TEXAS

DEPARTMENT OF GEOLOGY

May 22, 1939

Mr. H. B. Stenzel
Geologist
Bureau of Economic Geology
Austin, Texas

Dear Stenzel:

I am glad to hear that we will probably be able to continue our work on the catalogue this summer. I will be able to be over there June 5 and will have to leave July 15. I expect our work will be chiefly working up the various groups of genera to get them in shape for publication.

If your plans are otherwise, please let me know.

Very sincerely,

F. E. Turner
