Dear Mr. Stenzel.

I thought you might enjoy reading this soul stirring alumni news bulletin from our alma mater. We are, in a sense, both alumni of this institution - both having left at nearly the same time.

It appears to me that there is something lacking in the whole outlook of the bulletin - It

presents a plea for funds, support for the dear
"old Alma Mater" - but at the same time

blithely seems that the educational standards
are on a par with Ivy League schools,

Tulane, U. Texas, etc., Rice Inst. - It was just
fortunate that there were a few gifted and far-
sighted people in several departments that managed
to keep the general atmosphere from becoming an
intellectual quagmire. I remember Dr. Sawin's
incessant struggle with the (i) famous Dept. of
Education - with their equally (ii) famous M.S. & Ph.D.
degrees.

As well, we can look back with a tear in our
eye and begin to forget the whole business now.
Incidentally, the 2 crates are on their way by steamer -
Neymen & Skultze lines are forwarding agents for American
Express Co. - and the material should arrive within 3
weeks.

Sincerely,
Bill Berggren
