Dr. H. B. Stenzel
Bonham Hotel
Colmesneil, Texas

Dear Dr. Stenzel :

Carlton tells me that you brought him 11 cards of the Tertiary fossil catalog and that these have been set up and he was expecting to go right on through with the job. If the others are ready please let us know and we will get them from your room and take them to Carlton. In order to avoid confusion it is desirable that whatever goes to the printer should go definitely through the secretary's hands. In this instance, we did not know that only a part of the cards had been taken and in fact we did not know how many cards had been taken. Please let us know what are fully ready for the printer and where they are and we will get them to him.

Very sincerely yours,

E. H. Sellards
