

UNION PRODUCING COMPANY  
HOUSTON • TEXAS

April 23, 1943

Dear Doc:-

Your modest little note received & duly noted. I will be very happy to do what I can toward helping you, as I have never visited the East & I am sure you would invite me up as a Distinguished Lecturer.

Dr. J. Brian Eby will be in Austin today & Saturday and I have asked him, if possible to talk with you. If through him we can get some of the Hopkin's aluminum (crack-pots) behind you, that should help. He knows Reside well. Perhaps we can get at Chamberlin through Ivy. How about expanding your field invitation to include him? Will try to get with these two this coming week.

Mick chord has been raising hell, so am semi-Equus ~~de~~ combatensus. Hope you are not the same.

Regards,

Muel C. Garaboly
