Dr. H. B. Stenzel  
Shell Development Company  
P. O. Box 481  
Houston 1, Texas

Dear Dr. Stenzel:

Your letter of 23 April and the little box containing a specimen of Graphularia was on my desk on return from vacation in England last Monday. Naturally, we are delighted to have this specimen and Leo has accessioned it in the Paleo. Collection. You are very kind to have taken the time to get the specimen to us.

We enjoyed your visit to the Academy and hope you will be coming out again relatively soon.

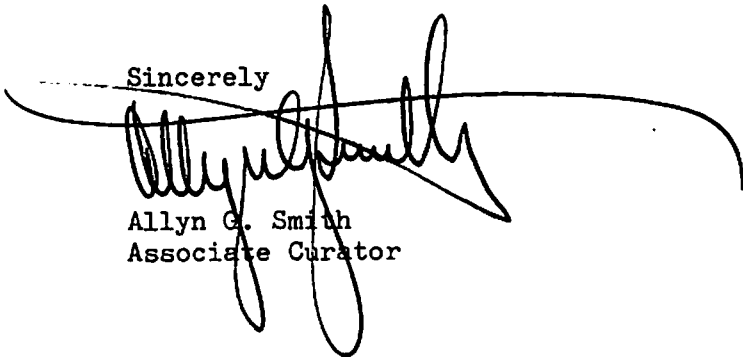

While in England, where we spent all of our vacation time, I spent a couple of days in the British Museum. Met L. R. Cox for the first time personally and had a few delightful hours with him, including lunch.

There is nothing much new to report on Academy activities except, perhaps, the opening of a new volume of our Proceedings to honor Dr. Hanna on his 75th birthday. Vol. 32, no. 1, issued April 24, contains a brief biography and bibliography. The remaining numbers of this anniversary volume will be staff-written.

It was a pleasure to have been able to get a bit acquainted with you and I hope we will be able to repeat in the not too far distant future.

Leo and Doc send their regards.

Sincerely

Allyn G. Smith  
Associate Curator
