Dear Miss Kober:

I am replying to your letter of November 17th on behalf of Professor Broneer who is at present in Athens.

In the first place, let me thank you warmly for your cheque. You will receive an official acknowledgment shortly, but I wish to say at once how much this is appreciated.

With regard to the Pylos tablet, you will have to consult Professor Blegen who simply placed the photograph at our disposal without any mention of conditions. In the expectation that you will receive a favorable response from him, I am sending under separate cover a dozen additional copies of the booklet. We shall count it to the good if they make more widely known not only the Pylos tablet but also the work and needs of the School.

Yours sincerely

Homer A. Thompson
