

May 3, 1965

Professor Heinz A. Lowenstam
Department of Geological Science
California Institute of Technology
Pasadena 4, California

Dear Heinz:

By separate mail you shall receive a vial of oyster larvae (Crassostrea virginica), 2 complete shells of Crassostrea virginica adults, and a cluster of Crassostrea rhizophorae (Guilding, 1828) from Puerto Rico. I hope these samples will help you in your studies. Please let me know if you need any other material I may have available.

It was a pleasure to talk to you in New Orleans.

Sincerely,

H. B. Stenzel
