Dear Mike:

I am glad to hear from you again and hope you are doing fine. In the last paper I gave at the regional A.A.P.G. meeting in Austin, October 18, I had occasion to refer to your paper on the Midway--Wilcox contact. You were favorably mentioned. Thank you for the complimentary copy of the guide book. I shall get in touch with the student organization here ("Fault-finders") and see whether they want these publications.

Best personal regards,

Sincerely yours,

H.B. Stenzel, Geologist

HBS/st

P. S. I have obtained one order for the guide book already. The order will go to you directly.
