

August 2, 1948

Dr. H. A. Lowenstam  
Department of Geology  
The University of Chicago  
Chicago 37, Illinois

Dear Dr. Lowenstam:

I shall be glad to go out with Dr. Urey and you in the last week of August. If you plan to go from here to Washington, D. C., you can pick up fossils of the Yorktown formation and its equivalent on the way up to Washington, if you take your route through the Gulf and Atlantic coastal plains.

With best personal regards,

Sincerely yours,

H. B. Stenzel  
Geologist
