Dear Doctor Haas:

In working on the nomenclature of genera of the family Ostreidae (Pelecypoda) I have come across the following reference:

Sinostrea Haas Bronn's Klassen & Ordnungen des
Tierreichs 2. 2. 1938 p. 294.

It has not been possible to locate this book in any library so far, although many libraries have parts of the Bronn's Klassen and Ordnungen Tierreichs. Inasmuch as the author's name is Haas you may perhaps know the book and have it available. If so I would appreciate it greatly if I might borrow it either through the library exchange service of our University or directly.

With many apologies for the trouble I may be causing you.

Sincerely yours,

H. B. STENZEL
Geologist
