**Dr. J. Knudsen  
Universitetets Zoologiske Museum  
Krystalgade  
København K, Danmark**

**Dear Dr. Knudsen:**

Thank you very much for your informative and prompt reply to my questions addressed to Professor Lemche. You can rest assured that the data will be quite useful for publication. I am trying to construct good maps showing the geographic distribution of the two species.

When I was in Paris in 1962, I made a list of all the specimens at the Musée National and at the École des Mines, but I suspect that I did not get to see the specimens that had been borrowed from Copenhagen.

With many thanks

Sincerely yours,

H. B. Stenzel
