Dr. Thurlow C. Nelson  
Department of Zoology  
Rutgers University  
New Brunswick, New Jersey

Dear Dr. Nelson :

I am reading with great interest your article on "The Feeding Mechanism of the Oyster," Journal of Morphology, Vol. 63, pages 1-61. My interest is aroused particularly because of the bearing your research has on classification and evolution of the oyster. I would greatly appreciate it if you were to be so kind as to send me a reprint of that article if you have one. Presumably you have done considerable other research on the oyster which might have similar interest to me. I would be interested in knowing about it. By separate mail there is being sent to you a few of my publications.

Cordially yours,

H. B. Stenzel, Geologist
