Dr. H.B. STENZEL,
3726 Colquitt St.,
Houston 27, Texas

Dear Sir,

I take the liberty of writing you this letter, Hoping that you will accept it favourably.

I have directed my studies towards the fossil Lower Jurassic pelecypods, with which this country is very rich. I shall give for many years my attention on this problem.

Dr.D.NICOL, who kindly gave your adress, announced me that you are the proper person who could help me with information about the ecology of the Ostreidae.

I am a very much interested in your papers on these subjects. It will be a great honnour for me to receive reprints of them.

Please, accept assurance of my deep respect

Yours sincerely

Vladimir L. Shopov
