Mr. J. M. Hancock
Southern Minerals Corp.
Corpus Christi, Texas

Mr. W. Armstrong Price
The Texas Building
Corpus Christi, Texas

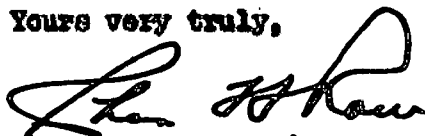

Dr. H. B. Stenzel
Bureau of Economic Geology
Austin, Texas

Gentlemen:

Attached hereto is a copy of a letter from Dr. H. B. Stenzel which is self-explanatory. I am sending also to each one of you a copy of a letter from J. B. Garrett to Mrs. Plummer with reference to this subject. Dr. Stenzel provided several copies of the letter for this distribution.

Some of you, certainly Curry and McCallum, as well as Dr. Stenzel, are fairly familiar with this subject and I am wondering what all of you may think about undertaking to solve this particular problem as a part of our Committee's work on Tertiary Nomenclature. I want right soon, probably at our next monthly meeting, to have our Committee together for conference. You might be thinking about this question in the meantime and be ready to express your ideas at that time.

Yours very truly,

Chas. H. Row, Chairman
Geologic Names and Correlations
Committee
