

March 5, 1951

Dr. Harry S. Ladd
Room 405, U. S. National Museum
U. S. Geological Survey
Washington 25, D. C.

Dear Harry Ladd:

Thank you for your letter of February 28, 1951. The file cards on Nautiloids arrived safely. It was a very good idea to type the material on such cards. There may be some additions. If so, I shall send you the additions in card form ready to be inserted.

I had hoped you had forgotten about the annotated bibliography of Tertiary mollusks. The thing is ready for publishing, but it makes such a poor showing for the subject. There simply has been very little attention paid to paleontology in the past. The manuscript is enclosed with this letter.

With best regards,

Sincerely yours,

H. B. STENZEL
Geologist
