Dear Dr. Stenzel—

Yesterday, I received a letter from Dr. Hansdale with an offer for summer employment. I have answered accepting with much gusto.

I heartily approve of your suggestions for the program of work, and expressed such to Dr. Hansdale. I expressed my desire to have my work under your supervision as much as possible — so anything you have in mind will certainly meet with my approval. I'm eager to learn more of the secrets of Tertiary geology.

Thanks again for your kind consideration in my behalf—

Sincerely —

Dan
