

October 21, 1947

Mr. F. W. Rolshausen  
1041 Humble Building  
Houston, Texas

Dear Mr. Rolshausen:

Thank you for your correlation charts that you were so kind to send to me recently. They will be helpful to me.

I have made inquiries concerning the small scale county maps and the Statewide Planning Survey of the Texas State Highway Department said that they quit making these maps in 1943, but have most of the counties of Texas still available. The price is 5¢ per sheet, each sheet covers a county, and is 8½ x 11 inches in size. Compare enclosed sample of Bastrop County. One of the gentlemen from the Highway Department was going to send me a list of the counties available, but the list has not yet arrived here. I shall forward it to you as soon as it is available.

With best regards,

Very truly yours,

H. B. STENZEL  
Geologist
