

Dear Henry K: - There's a small bottle
of ink in Shreveport - so take
pen in hand! Departed Shreveport
Nov 1st for a 10 day trip in
part in the Big Bend - thence
westward to Sierra Blanca where
met a big rain - so had to cut
short the sightseeing + return
to Shreveport. - later took off for
San Antonio - there a week and
on to the ranch - just got back
had to put on chains to get in
to the house - a bit muddy due
to snow fall - 3 miles of pasture
roads. Had a couple northerns - morning
temperatures below 30° - otherwise
cool. Worked on fences + took walks
with early to bed + early to rise.

We are leaving Shreveport
around April 1st - bag + baggage -
a van full - moving to Edwards
County - retirement from the
Govt. - maybe not from geology -
there's plenty of it round about!
In between times looking on the
"Taylor" - "Austin" contact - surface +
subsurface - it's a guess.

Hope you are feeling better - take it
easy - our best wishes for Xmas +
New Years

Sincerely
Ray
