Dr. H. B. Stenzel  
115 West 22nd  
Austin 21, Texas

Dear Dr. Stenzel:

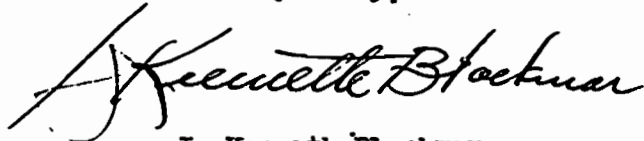

We have your statement as of August 23rd for services in the field.

We would like to have your report on the samples from the test hole drilled on the Cain tract of land together with any other comments on the area.

If you have made any determinations on the samples from Mr. Caylor's water well on the Kindred tract south of Waelder, we would also like to have that information. I will send you a driller's log on the Kindred well as soon as it is available.

Thanking you, I am

Yours very truly,

J. Kenneth Blackmar
