Dear Mr. Curry:

Your letter of April 10, 1959, has been received a few days ago. I am very sorry to hear that you have not yet received the report on the pelecypeds from Stone City.

The package was addressed to your old address, if I remember correctly. Perhaps you ought to get in touch with the present occupant of the place and with the local post office there to try to trace the package; for it has not been returned to me. The report is 237 pages thick and 7 by 10 by 1/2 inch. It disturbs me somewhat, because the book is fairly expensive.

I am looking forward to receiving the collection of fossils you were so kind to wrap up for me. They will come in handy for comparison with our local material. Of course, you will be notified when they arrive.

With many thanks  
Sincerely yours,
