

9 Plutarch Street, Athens,  
August 30, 1961

Dear Emmett:

This is just a hasty line to thank you for your letter of August 16 and to wish you the best of luck for the meeting at Racine. I wish I could be there with you and hear the discussions. Please give my regards to all friends of mine who turn up. Under separate cover, by airmail, I am sending you a copy of a brief report on the season of 1961 at Pylos. If you want to read it to the meeting, some may be interested; but I doubt its value for publication in its present form. I hope to ~~be~~ produce a better one for A.J.A., if it is desired. Mabel can supplement my short account.

I'm glad that you are going to finish the paper on the findings places of the tablets. You can tell me all about it when you come to Athens. I'll be glad to hear your case for a door from the Archives Room into the inner stoa of the propylon. I think we have good evidence for one from the annex into the outer stoa.

We shall have much to talk about when we meet. All my best to Marja and the family, in which Elizabeth joins me.

Yours ever,

Carl Blegen
