

August 20, 1943

Mr. Curtis J. Hesse, Curator
A. & M. College Museum
College Station, Texas

Dear Hesse :

Your manuscript arrived today. I shall work it over a little and incorporate it in our A.A.P.G. manuscript. We have now a photographer who is doing good work. Compare the samples enclosed. Perhaps it would be a good idea to illustrate some of the vertebrates for the A.A.P.G. Bulletin. Is it possible that you would entrust the specimens to the mails and send them over to me to have them photographed? Any photographs you would care to have made now, you should submit with that material. I think all of it can be handled.

Sincerely yours,

H. B. Stenzel, Geologist
