

December 13, 1960

Mr. F. Stearns MacNeil
U. S. Geological Survey
4 Homewood Place
Menlo Park, California

Dear Mac:

The copy of the enclosed letter might be of interest to you. When is your work on the Vicksburg coming out? That is one report I am really anxious to see.

Progress on my last paper is very slow. There is much library work connected with it. Unfortunately there is no extensive library for paleontology here. Rice University has made a start but is still quite incomplete.

Best wishes for Xmas.

Sincerely,

H. B. Stenzel
