W. H. TWENHOFEL, EDITOR
 MADISON, WISCONSIN

1704 Adams Hotel Bldg.,
 San Antonio, Tex.,
 August 3, 1945.

Dear Henryk:

All things come to those who wait—
 long enough. It seems the Editor is playing
 into our hands very nicely, and, if we wait
 until fall before taking any action, by that
 time he may hang himself.

Seriously, I am very glad to
 hear of the brush between Knight and Weller.
 A few more encounters with outstanding
 S.E.P.M. contributors should furnish us
 all the ammunition we need to open up on
 him, in the event that should be necessary. I
 prefer your suggestion of easing him out in
 such a way as to avoid bad feeling, if
 that is possible.

Newell certainly is the man to
 take over the Journal, provided he will
 accept it. I shall be glad to communicate
 with him when we learn his address.
 Early September should be soon enough.
 Then we might anticipate getting the matter
 cleared up by the first of the year so that the new
 editor would start a new volume.

Should you have a chance to speak
out tonight, please do so, and let me
know the results. I'll write him, if you
say so.

Incidentally, I have written J. J.
Lingwood and Redside relative
relative to the position at Hopkins. I
hope the results will be encouraging.

Sincerely,

John R. Audin
