Dear Emmett -

Under separate cover, three obituaries for Samuel (whose address I did not know so I can't send earlier) and C and C. You and R. Ward are taken care of.

Miklostein writes nice p.c. - being delighted with ka-20-2 and having suggestions. Most Americans acknowledge without comment; foreigners are somewhat more demonstrative. Webster, having seen at least one of the 1957 tablets in Athens, sends me his readings!

The tablet-book makes a wonderful trade mark; do use it.

I never commented on the your review in Language but I do cherish it as an essential addition to Docs.
