

April 14, 1947

Mr. Dan E. Feray
Department of Geology
University of Wisconsin
Madison 6, Wisconsin

Dear Dan:

I was very glad to get your letter of April 1. Mrs. Plummer and I are going to discuss your list of the Alabama locality. It seems a very nice list. There is a possibility that this locality represents marine Thewrill rather than Viesca. In response to work for the Bureau, if you can think of any equipment that you might wish to have for your use during the summer please let me know so that it may be ordered in time. I am looking forward to seeing you here.

Sincerely yours,

H. B. STENZEL
Geologist
