Mr. Fred T. Mosely  
4352 Livingston Avenue  
Dallas, Texas

Dear Mr. Mosely :

By separate mail there is being sent to you a package containing some of the material from California Crossing which you had collected originally. This particular material is not needed here any more, and I thought you might wish to have it returned.

In the same package there is a fossil crab, from the Weches formation of Leon County, which I am presenting to you. I hope it will in a small measure repay you for the pains you have taken in collecting the very fine material that I have described. The manuscript on the crabs is now being typed and should go to the press this winter.

With many thanks,

Sincerely yours,

H. B. Stenzel, Geologist
