THE GEOLOGICAL SOCIETY OF AMERICA

OFFICE OF THE SECRETARY

Columbia University,
New York, December 16, 1931.

Mr. H. B. Stenzel,
Department of Geology,
Agricultural & Mechanical College of Texas,
College Station, Texas.

Dear Mr. Stenzel:

This is in reply to your letter of December 11, to tell you that there were so many requests for places on the Tulsa program of the Geological Society that it became necessary to exclude presentation by non-members, except to about three to whom special invitations had been extended. Your paper, together with about twenty others by non-members who had asked for time, will be read by title and the abstracts will be published in our Bulletin.

It may be, of course, that gaps will occur in the program of the session to which your paper was assigned, and in that case there is a possibility that you may be able to present it. Of course this can not be determined definitely in advance, or, at any rate, at this stage.

Very truly yours,

(Mrs) Miriam J. Howells

Assistant to the Secretary
