Dr. Henry A. Pilsbry
Curator of Mollusks
The Academy of Natural Science of Philadelphia
Nineteenth and the Parkway
Philadelphia 3, Pa.

Dear Dr. Pilsbry:

In response to your letter of July 7, it is correct the J. A. Singley collection of mollusks is in the Geology Department of The University of Texas. There are several trays of specimens from the Galveston deep well present, but the Helix hindsi Pfr. could not be found. I shall continue searching for the Helix but would like to let you know that the hope for its recovery is dim.

I am off for field work in east Texas, where it is up to 100 degrees every day.

With best personal regards, I am

Sincerely yours,

H. B. STENZEL
Geologist
