Mr. Douglas E. Jones
Louisiana Geological Survey
Geology Building
University Station
Baton Rouge 3, Louisiana

Dear Mr. Jones:

Thank you for your letter of January 12 concerning your mapping in Bossier Parish. I am, of course, very much interested in your work and would like to help. However, at the present time I find myself so preoccupied with other matters that I doubt whether I would do you any good. For this reason I regret to have to say no to you. This is done with a great deal of embarrassment, for you are the first person in my life I had to refuse to help in matters of geology. So, please accept my apologies in this matter.

I am sure Clarence will understand my action fully. Please give him my best regards and my home address in case he does not have it.

Very sincerely yours,

H. B. Stenzel
