

November 14, 1942

Mrs. Katherine V. W. Palmer
Paleontological Research Institution
126 Kelvin Place
Ithaca, New York

Dear Mrs. Palmer :

Please accept my thanks for your letter of November 7 which contains a very excellent suggestion. You are certainly right that a date would be very helpful and I shall see that henceforth we insert a publication date on our cards.

I have been intending to send you people in Ithaca some of the type material which is so copious that I would not miss a few specimens. However, lately I have been out in the field so much that I have not been able to do anything in the way of paleontologic work but I shall keep that in mind.

With many thanks for your suggestion and best wishes,

Sincerely yours,

H. B. Stenzel, Geologist
