

November 18, 1966

Mr. Thomas A. Cullinan  
3201 Richland Avenue, Apt. 21  
Metairie, Louisiana 70002

Dear Mr. Cullinan:

Thank you for your letter of November 15, 1966. I am glad to hear you are interested in a dissertation problem in the Tertiary Gulf Coastal Plain and will help you in finding one, and perhaps help you with the work. There are innumerable problems available and feasible.

It would be best to discuss all aspects first. This will be fairly easy after February 1, 1967, because it now looks that I shall be a visiting professor at L.S.U. in Baton Rouge beginning with that date. You could drive up to Baton Rouge and visit with me. Please write me again, c/o School of Geology, Louisiana State University, Baton Rouge, Louisiana, 70803, sometime in February or March, 1967.

Please give my warmest regards to Professor Vokes.

Sincerely yours,

H. B. Stenzel
