AR 29 A Recommendation to the Capital Metro Shuttle Bus Committee to
Use The Red River and Intramural Fields Bus to Satisfy the Need for
A New Crossing ~~Pointe~~ Route.

Whereas students at the University pay \$4,652,193 toward the operation of the Capital Metro Shuttle Busses.

Whereas each student pays a portion of the total sum.

Whereas every student paying for a service should be entitled to receive that service.

Whereas students living ^{South} North of campus on Crossing ^{Place} Pointe do not currently receive Capital Metro service.

Whereas busses from the Intramural Field and Red River Routes are available to be moved to Crossing ^{Place} Pointe causing minimal difference in the existing service on the aforementioned routes.

Whereas alternative plans would cause greater disturbance in existing services to students.

BE IT RESOLVED that the Student Government at the University of Texas at Austin recommends to the Capital Metro Shuttle Bus Committee that shuttles are taken from the Intramural Field and Red River routes to service Crossing ~~Pointe~~ ^{Place}.
