November 1, 1961.

Dr. H. B. Stenzel,
3737 Bellaire Boulevard
HOUSTON, TEXAS.

Dear Dr. Stenzel,

I am enclosing with this letter three negatives of the small Nautilus shell which I photographed for you while in Philadelphia recently. I have had a look at them under the microscope and there seems to be a fair amount of sculptural detail, at least on the negatives showing the lateral views. In any case I hope you will find them useful - I don't want them returned.

We are enjoying our visit here at the British Museum, especially the opportunity of studying so much type material. If you would like me to examine any Nautilus types for you, or if I can assist you in any other way, please let me know.

It was an unexpected pleasure to meet you in Philadelphia and I hope it will not be too long before we can renew our acquaintance.

Yours sincerely,

Don McMichael

Don McMichael.
