July 28, 1936

Dr. H. B. Stenzel,
Bureau of Economic Geology,
Austin, Texas.

Dear Dr. Stenzel:

Many thanks for your separate on the new
formation in the Claiborne group.

I have managed to pick a few samples further
in Ray No.39, and found *Cornuspira* in our second *Ceratobulim-*
ina zone sample. This is somewhat in better agreement with
your surface samples containing *Cornuspira*. Maybe some day
we will finish up your samples.

Best wishes,

Merle C. Israelsky
