Mr. H. B. Parks  
Route 1, Box 368  
San Antonio, Texas

Dear Mr. Parks:

Please accept my thanks for your great help in identifying the plants that I sent you recently. Your letter and the package arrived safely. I am indeed very glad to have the identified specimens so I can learn these plants and know them when I am in the field.

At present I do not know when I am going to go out into the field again but if I get a chance to do some field work this year I shall collect for you again.

With many thanks,

Sincerely yours,

H. B. Stannell, Geologist
