DEPARTMENT OF GREEK AND ROMAN ART

February 6, 1946.

Miss Alice E. Kober,
Brooklyn College,
Bedford Avenue and Avenue H,
Brooklyn, New York.

Dear Miss Kober:

I am glad that the photographs of the Knossos inscriptions reached you safely. Generally we send a bill for such service, but I feel that in your case, since you are engaged in an important piece of work by which we shall all profit, the Museum would be glad to help you in your studies. The Museum did a similar service to Mr. Blegen in Cincinnati, and so we wanted to do the same for you.

With regard to publishing photographs of these copies, we are, of course, conditioned by the fact that it would not be "etiquette" to do so without the permission of the excavators and the Greek authorities. If you should want to publish the photographs, you or we would need to get the necessary permission.

Sincerely yours,

Gizela M. A. Richter
