Dr. H. B. Stenzel  
Bureau of Economic Geology  
University of Texas  
Austin, Texas

Dear Dr. Stenzel:

As you know, I am engaged in a study of the shells of the Gulf Coast region, and in connection with this work, I am employing all available sources for pertinent information.

I am now interested in becoming a member of the Malacological Society of London in order to receive the Proceedings of that group, which I feel should prove quite helpful. Before accepting new memberships, the Society requires letters of recommendation to accompany applications for membership, and I should be very grateful if you would consent to furnish me with such a letter. Just a brief letter forwarded to me to accompany my application would be quite sufficient. It should be addressed to Mr. L. R. Cox, British Museum of Natural History, Cromwell Road, London, S. W. 7.

Please accept my thanks in advance for this favor.

Sincerely yours,

*Thomas E. Pulley*
