

W. H. WEEKS
508 WILLOUGHBY AVENUE
BROOKLYN, N. Y.

Oct 6. 43.

My dear Dr Stenzel:

I thank you for your
letter: I can see that your
interest is mainly in fossils &
which I try not to touch -
Recent shells is about all I
can do now. - I am yet I am
going through now a deep sorrow,
the loss of my dear wife who
slipped away last month. The
spectre of loneliness is forever
stalking me. I am wondering if
you have some of your local
land shells in duplicate - in exch.
for my Philippine lands? My
maxims have been damaged by

an erst while I came during our
long three years of tedious sickness.

He was jealous & wanted to
hurt me -

Yours sincerely
Wm H. Clark
