Dear Mr. Nicol:

The separates of "Genera and Subgenera of the Pelecypod Family Glycymeridae" and "Restudy of Some Miocene Species of Glycymeris From Central America and Colombia" arrived here today, and I wish to thank you for them. It is commendable that you have straightened out the nomenclatorial tangles of the Glycymeridae. Such work helps all who have to handle these genera.

With best regards,

H. B. STENZEL
