Dear Henryk:

The publication of your splendid summary over the biology of living Nautilus has led me to believe that you have become free for work over the superfamily to which the oysters belong. I wonder what progress you can report in this contribution for the TREATISE? Perhaps when I see you at Houston, at the time of the AAPG convention, we can talk over this problem.

With kind regards, I am

Sincerely yours,

Norman D. Newell
Curator, Fossil Invertebrates.
