Dear Dr. Stenzel,

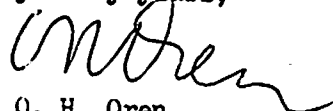

In reply to your letter of December 1, 1964, I am sorry to inform you that no observations have been made on the biology of oysters in the Gulf of Aqaba (Eilat).

The most of the published works on the fauna of the Red Sea are of taxonomic character.

As we are doing explorations of the Red Sea, we would be willing to obtain a research project on the oysters in the north of the Gulf of Eilat for a period of two to three years.

Hoping to hear from you and with season's greetings,

Very truly yours,

O. H. Oren
Director
