Dear Dr. Stenzel:

We have just learned of the untimely death of Helen Jeanne Plummer. Needless to say, all of us here are profoundly shocked and grieved. We have been considering who might best be able to write her obituary for the next number of *The Micropaleontologist*. All of us agree that you undoubtedly knew her better than anyone else we could call on for this task. We sincerely hope that you will be willing to supply us with an account of her life and a recent photograph suitable for publication.

Sincerely yours,

  
Brooks F. Ellis
