Title of Bill: A.B. 49: Engineers' Day at the Mall

Committee Analyzing Bill: Appropriations

Recommendation: (please check one)

XX Goes to floor _____ Put on Local and Consent Calendar

Alterations or Explanation: (written comment)

The appropriations committee feels that this group could do a lot more to fund its program and has not demonstrated adequate fundraising activities. Further, this group has already received \$441 from SA this semester. In addition, Student Engineering Council failed to submit a complete budget, thus the appropriations committee could not even decipher the importance of the contribution to the overall picture. Thus, the committee gives this bill a negative recommendation.

The financial director is in accord with this recommendation.
