

L. Picard.  
Hebrew University.

9/7/48.

Dear Henryk,

glad to hear from you via "business-correspondence".  
We receive the Journal of Sedimentary Petrology through  
the kind subscription of an old friend of my Department,  
Mr. Julius Fols, Houston.

When times become more stable I will reconsider your  
offer to become a member of your Society.

I am writing you from the neighborhood of Tel-Aviv,  
until the truce I was staying in Jerusalem all the  
time on "duty". Now, the new State for Israel  
has asked me to initiate the Geological Survey.

Are you going this year to the Intern. Geol. Congress.

Kind regards yours  
L.P.
