

March 9, 1970

Professor Hubert C. Skinner
c/o Geology Dept.
Tulane University
New Orleans, La. 70118

Dear Hubert:

Nothing like writing a letter before one forgets what one has to do or write about. For your information, the new French serial is entitled: "Travaux du Laboratoire de Paléontologie" and is published by: "Universite de Paris, Faculte des Sciences d'Orsay." I am pretty sure you might arrange an exchange for the Tulane Studies. The man in charge is Professeur J. Roger. Orsay is a suburb on the west side of Paris. The enclosed label gives the full address.

It was very interesting to me to visit with you again. We have so much in common. I thoroughly enjoyed your visit.

Sincerely,

H. B. Stenzel
